

SHERBURNE ELEMENTARY SCHOOL

BOARD RELATIONS WITH STAFF

Staff participation in the development of educational and personnel policies will be encouraged and facilitated by the board.

Individual board members formally communicate with staff members on matters of school business only at the direction of the board.

Board members will adhere to procedures required by board policy and Vermont law related to collective bargaining and teacher evaluation.

SHERBURNE ELEMENTARY SCHOOL

BOARD RELATIONS WITH THE PRINCIPAL

The superintendent will develop guidelines for board relations with the principals and other administrators. Guidelines for board relations with principals should take into account:

1. the responsibility of the superintendent to direct the administration and coordination of educational programs in the district,
2. the periodic need of board members for information most readily available from school principals, and
3. the need to maintain a distinction between the administrative role of the principal and the policy making role of the board.
